**Re: ExhibitView**

Dear Bill:

I recently used ExhibitView in a presentation I gave and it was great. It was easy to use, incorporated all my website links, and perfectly showed all my videos with a few simple mouse clicks. In so doing, it saved me valuable time and money when compared to other lacking programs currently on the market. I will not hesitate to use ExhibitView on future projects and cases as I think it is a great new asset for anyone that routinely gives presentations, seminars, or similar events.

Thanks again for introducing me to ExhibitView.

Sincerely,

**/s/: M. Brandon Smith**
